Study ST-13: Plantation oud acceptance, gulf panel, first screening

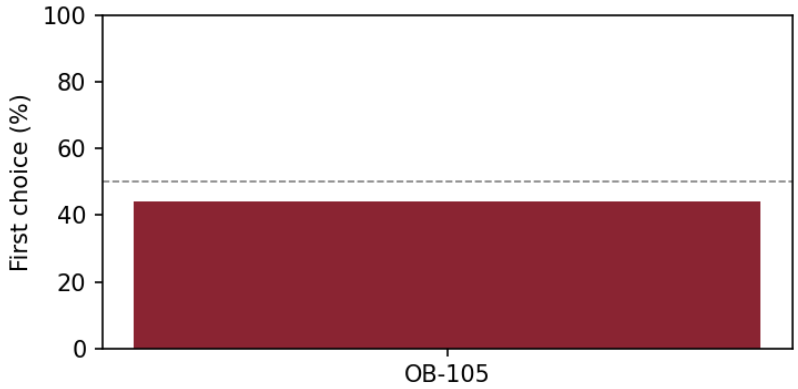
Sustainable Sourcing Programme · 2026-03-28 · Classification: restricted

Summary

First screening of OB-105 (plantation oud oil 22 percent, synthetic oud accord 10 percent) with 32 testers at Panel A, against the commercial reference OB-101.

Results

OB-105 reached 44 percent first choice. Testers pulled back at the first sniff, and interest recovered in the dry-down on day two. The opening was described by the panel leader as harsh and smoky.



Formula composition

Material	OB-105	OB-101
Assam oud oil	-	28 %
Synthetic oud accord	10 %	-
Plantation oud oil	22 %	-
Musk base	36 %	38 %
Amber accord	12 %	14 %
Bergamot oil	6 %	5 %
Sandalwood base	9 %	10 %
Cardamom extract S-3	2 %	2 %
Ambergris tincture	3 %	3 %

Recommendation

Recommendation: do not proceed with OB-105 as blended. Test a four-week maceration step before bottling and increase cardamom extract S-3 from 2 to 3 percent.

Notes

Restricted: contains supplier pricing for plantation oud oil under negotiation.
